EDUCATION

3rd Year Engineering Physics

2023-2028 (Expected), Vancouver, BC

University of British Columbia, Bachelor of Applied Sciences

Extra Courses: Currently Enrolled in the PHAS machine shop course, PHAS PCB Design Course.

Involvement: Volunteered in the UBC physics Olympics a physics competition for high school all around BC.

SKILLS

Mechanical: SolidWorks, OnShape, Prototyping, 3d printing, Laser Cutting, Milling

EXPERIENCE

Ikomed Technologies

- Designed electronic enclosures in SolidWorks to fit boards and connectors.
- Machined mounts and brackets in the shop to support assemblies.
- Helped built test jigs, run experiments, and record measurements

UBC

Robot Summer

- Designed robot chassis in OnShape with focus on strength and weight.
- Fabricated parts using laser cutter, water jet cutter, end milling, and drilling.
- Helped assemble robot and solved fitting issues with teammates.

OTHER EXPERIENCE

Deli Worker

April-August 2024 Vancouver, BC

La Grota Del Fromagio

- Prepared and served deli items while keeping station organized.
- Helped customers with orders and answered product questions.
- Used slicing machines, scales, and cash register safely and quickly.
