EDUCATION

3rd Year Engineering Physics

2023-2028 (Expected)

University of British Columbia, Bachelor of Applied Science

- PHAS Machine Shop Certification
- PHAS PCB Design Certification
- Volunteered at UBC Physics (province wide high school content)
- UBC BAJA Chassis sub team member

TECHNICAL SKILLS

CAD: SolidWorks, Onshape

Manufacturing: Mill, Lathe, Drill Press, Water Jet, Laser Cutter, 3d Printer, Sheet metal tools

Materials: Carbon Fiber Layups

TECHNICAL EXPERIENCE

UBC BAJA

September 2025 – Present

Chassis Sub team Member

- Designed and manufactured a full firewall assembly for BAJA car
- Performed carbon fiber layups and composite fabrication
- Fabricated components using waterjet, drill press, angle grinders, and pneumatic tools
- Prototyping using laser cutter, and 3d printer.
- Collaborated with several team members within my sub team
- Worked with other sub teams such as suspension and drivetrain to ensure smooth integration

Ikomed Technologies Inc, Vancouver BC

January – April 2025

Mechanical Engineering Coop Student

- Designed electronic enclosures in SolidWorks to mount PCB's and external connectors
- Ensured enclosures were up RF shielding and isolation standards
- Machined custom mounts, using mills, benders and other tools
- Drilled holes and milled slots in enclosures following SolidWorks drawings
- Helped built test jigs, run experiments, and record measurements
- Worked closely with my supervisor, as well as collaboration within small team.

Robot Summer Competition

Robotics Course, ENPH 353

2025

- Designed a modular robot chassis in Onshape
- Fabricated parts out of acrylic, delrin, and hardboard using laser cutter
- Manufactured sheet metal with water jet cutter, bender, and other hand tools
- Integrated mechanical design with electrical components

OTHER EXPERIENCE

La Grota Del Fromagio

April-August 2024

Deli Worker

- Prepared and served deli items while keeping station organized.
- Helped customers with orders and answered product questions.
- Operated slicing machines, scales, and cash register safely and quickly.
